

Newstead Terraces News

April 2017

Hi All,

We welcome young William Gustov Meade whom arrived a few days earlier than planned to proud first time parents Trent and Cecilie U16. Cecilie's Mum Mia is out visiting from Norway to assist with the new arrival.

We also welcomed the extended period of peace and quiet from the construction noise next door as the team took a long Easter break. Things were back to normal on Wednesday 26th.

Storm Damage

Our felled tree was finally cleared away by the council on Wednesday 26th, unfortunately the grass on the footpath where the tree remains were stacked has died. I have resorted to staking out two sections of our Newstead Terrace footpath in an effort to get the grass to grow, and planted a frangipani tree where the Leopard Tree used to be.

Air-conditioning unit services

I will send around the prices next week for the annual air con servicing. Owner Occupiers, please let me know if you would like your unit included in the program.

Renovations update

Due to weather delays the repairs to the render on the pool walk way continue. Our irrigation link up in the garden beds around the internal common area seem to be more problematic than beneficial and will be disconnected again. Back to hand watering those gardens. The expense to repair is not cost effective.

NEXT DOOR

Evelyn Street work has commenced on the 5th storey, and the first story on Austin Street has started to appear. We can get an idea now of the common area space and how it aligns with ours.
